the essence of soul

Spray Roses Collection 2022

BASHFUL

Alma was established in 1992 in Tabacundo - Ecuador, in 2021 became part of The Natuflor Group.

Since then we have been working in consolidating the presence of our product worldwide so it becomes the number one Spray Rose Brand for wholesalers and high-end markets. We have increased our portfolio to 80 varieties and 13 hectares of spray roses.

The quality of our spray roses is the result of its management on the field, postharvest and packing, but most important on our continued innovation in our processes and varieties.

The result is a uniform, pristine bunch: thick stems, big heads, radiant colors and foliage. Alma works close with breeders giving us the chance to innovate and present you the latest, most demanded and exclusive varieties. To us, variety innovation represents one of our most important competitive advantages.

We invite you to take a closer look to Alma Spray Roses, the best globally.
